

BARTKO PAVIA PARTICIPATES IN THE ITALY-AMERICA CHAMBER OF COMMERCE'S 12TH ANNUAL LUXURY SUMMIT

Events

21, November 2025

On November 20th, Bartko Pavia had the pleasure of taking part in *Designing the Future: Redefining Luxury in the Age of Innovation*—[Italian America Chamber of Commerce's 12th annual Luxury Summit](#) held at KPMG New York headquarters.

The event brought together more than 100 leaders to explore how modern luxury is being transformed by demographic and economic shifts, as well as the growing impact of AI on consumer behavior, brand strategy, and creativity. A standout moment was the fireside chat with renowned photographer Mark Seliger, who shared inspiring insights on creativity, storytelling, and visual narrative in today's luxury market.

One of the highlights was the opportunity to spend time with Mark Seliger and his team. We were invited to his iconic studio in Greenwich Village, where we had an inspiring conversation about creativity, craftsmanship, and the power of visual storytelling in today's luxury space.

A big thank-you to Italy-America Chamber of Commerce for an exceptional event and for bringing together such an impressive group of leaders and innovators.
